

Improve your bottom line with the combination of a team and technology, so your **business can grow.**

How we can help

Drive financial value for your organization with the combination of team resources and technology. With **e5 FLEX outsourced billing services**, you will see increased production and improvement to your bottom line without expensive up-front costs or long-term contracts.

The value

Work is performed in your billing system for seamless processing.

No long-term commitment (30-day out)

Productivity technology is used on your behalf to drive more revenue and keep costs low.

Items are getting worked that you can't get to

Substantial lift to your bottom line

Evaluate opportunity and work performed with weekly and monthly analysis reviews

Visibility of team productivity as if they were in the next room

Scalable in days and not months

How it's done

“Our workflow is simply solved.”

- Maria Green
CEO *Company Name*

What's included

Analysis of historical performance

Review results of historical performance with leadership and identify areas of opportunity

Prioritization of items to work based on your organization's financial priorities

e5 RCM priority processing engine will be utilized alongside our work in your billing system

Weekly and monthly analysis and team productivity reporting
